PRESENTATION OF THE FIRM

ATELIER 1/2/3 IS AN AGENCY OF
ARCHITECTURE AND PLANNING UP IN
TUNIS SINCE 2015

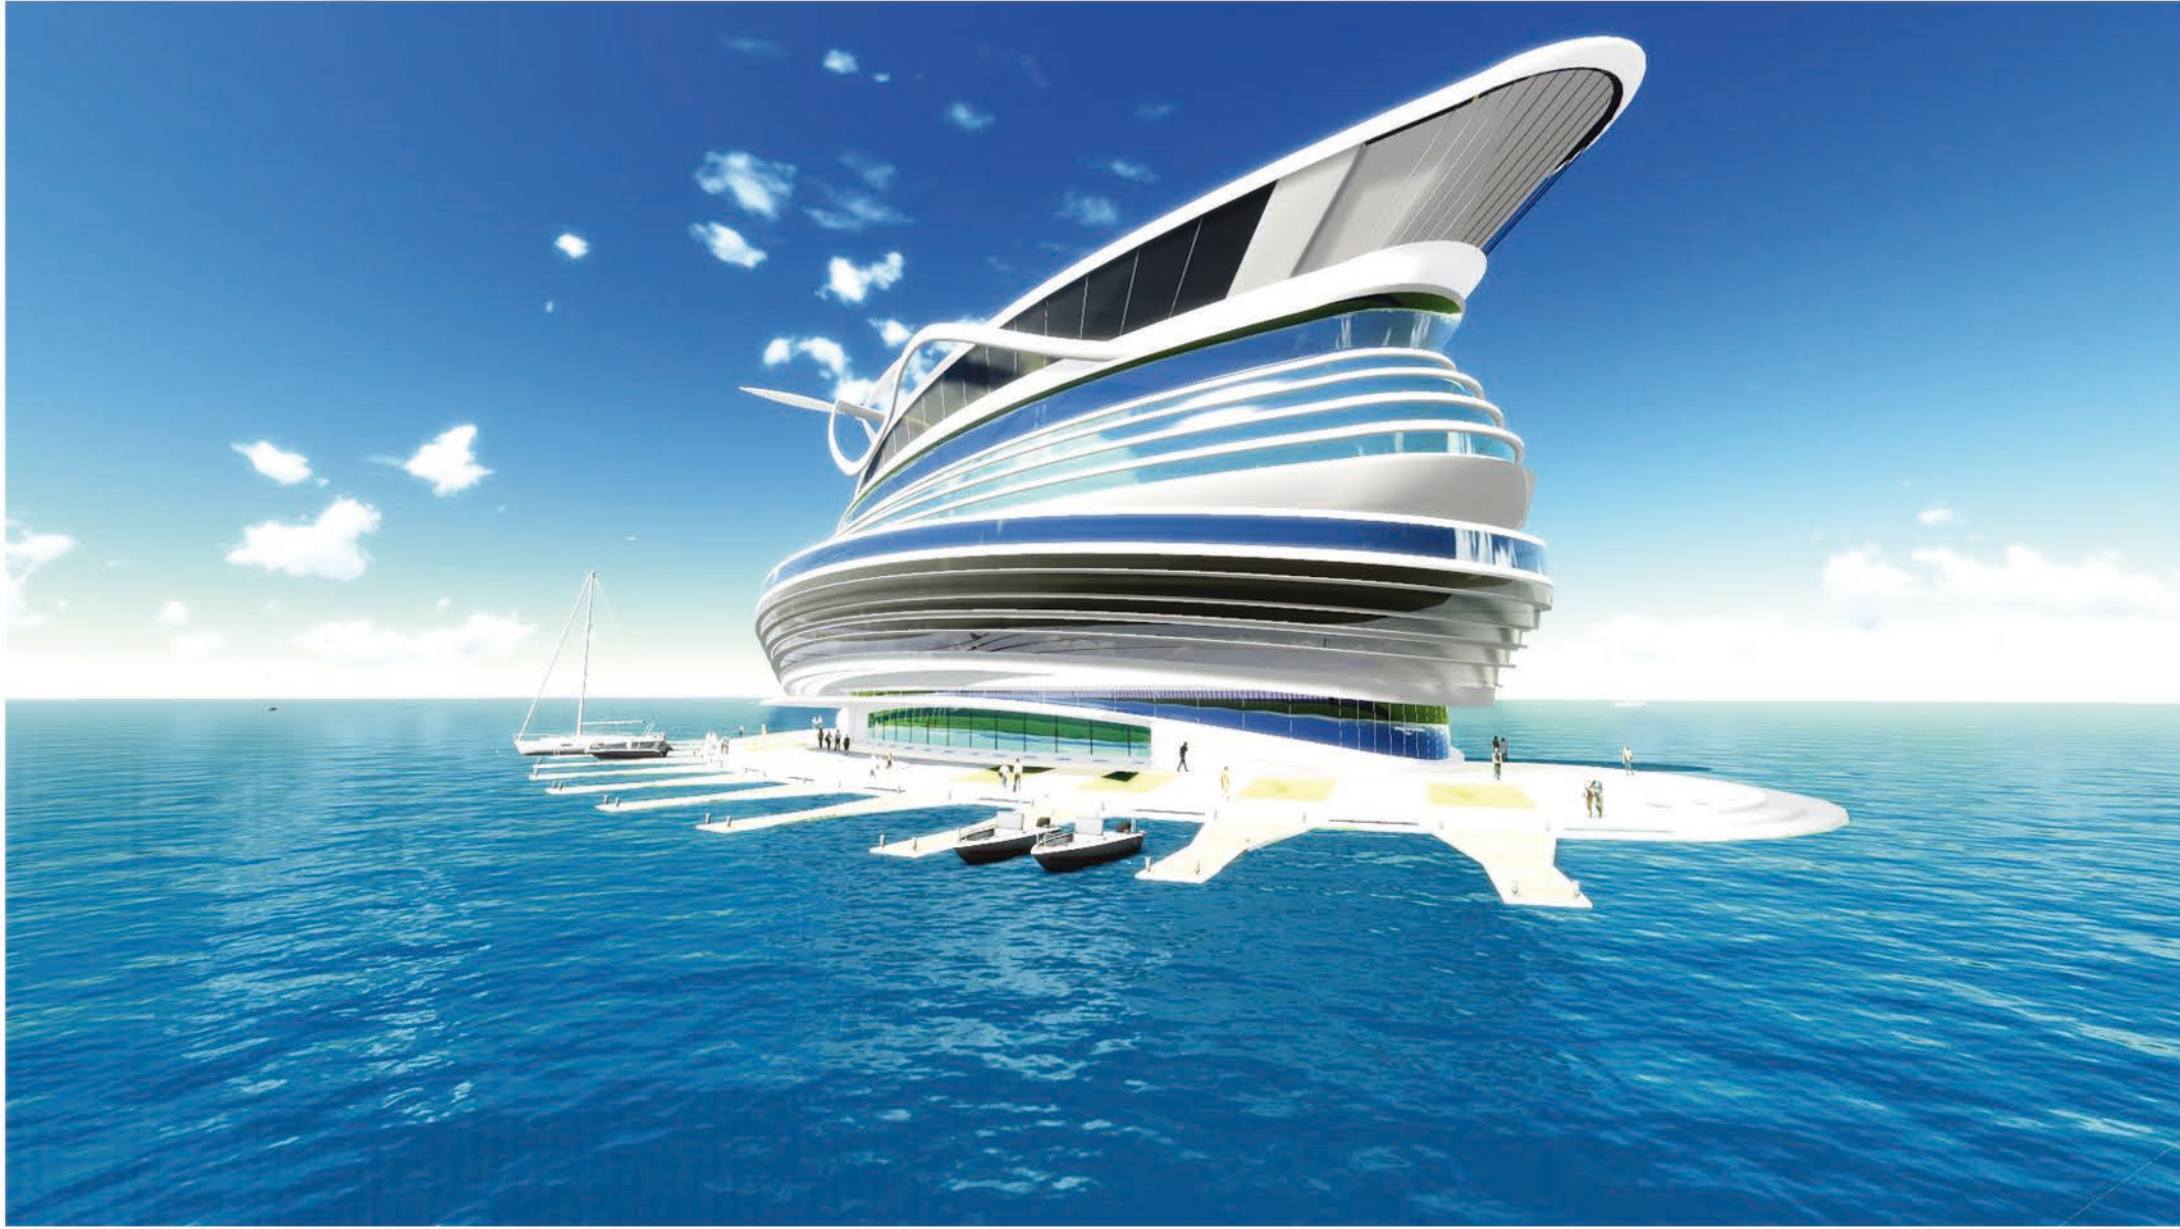

OUR PRACTICE: a balance between rigor
and boldness. rigor in the design and
monitoring of contemporary projects .

Boldness in the approach of timeless
architectural issues

OUR VISION : we see the architect as the
alchemist capable of
assembling materials and ideas

OUR AIM : to facilitate the tasks of those
who will follow us : contractors who will
build what we designed, managers who
will operate what we planned , people
who will use what we completed

OUR WISH : let the diversity of
commissions maintain our ability to
explore new territories. Let us not follow
recipes but keep trying new flavours each
time
